

STATION 1: CLOUD

1. You fall as rain onto an ocean. **Go to the Ocean station.**
2. You fall as rain onto an ocean. **Go to the Ocean station.**
3. You fall as rain onto a stream. **Go to the Stream station.**
4. You fall as snow onto a glacier. **Go to the Glacier station.**
5. You fall as snow onto the ground. **Go to the Groundwater station.**
6. You fall as rain onto a parking lot. **Go to the Stream station.**

STATION 2: GLACIER

1. You evaporate into the air. **Go to the Cloud station.**
2. You stay frozen in ice. **Stay at the Glacier station.**
3. You stay frozen in ice. **Stay at the Glacier station.**
4. You stay frozen in ice. **Stay at the Glacier station.**
5. You melt and become part of a stream. **Go to the Stream station.**
6. You break off from the glacier and fall into the ocean. **Go to the Ocean station.**

STATION 3: OCEAN

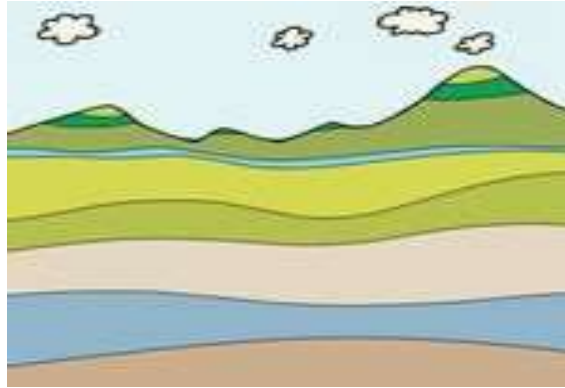

1. You are one of the many water molecules in the ocean. **Stay at the Ocean station.**
2. You are one of the many water molecules in the ocean. **Stay at the Ocean station.**
3. You are one of the many water molecules in the ocean. **Stay at the Ocean station.**
4. You are one of the many water molecules in the ocean. **Stay at the Ocean station.**
5. You evaporate into the air. **Go to the Cloud station.**
6. You evaporate into the air. **Go to the Cloud station.**

STATION 4: STREAM

1. You evaporate into the air. **Go to the Cloud station.**
2. You evaporate into the air. **Go to the Cloud station.**
3. An animal comes to the stream and drinks you up. **Go to the Animal station.**
4. You flow in the stream all the way to the ocean. **Go to the Ocean station.**
5. You flow in the stream all the way to the ocean. **Go to the Ocean station.**
6. A human drinks from the stream. **Go to the Animal station.**

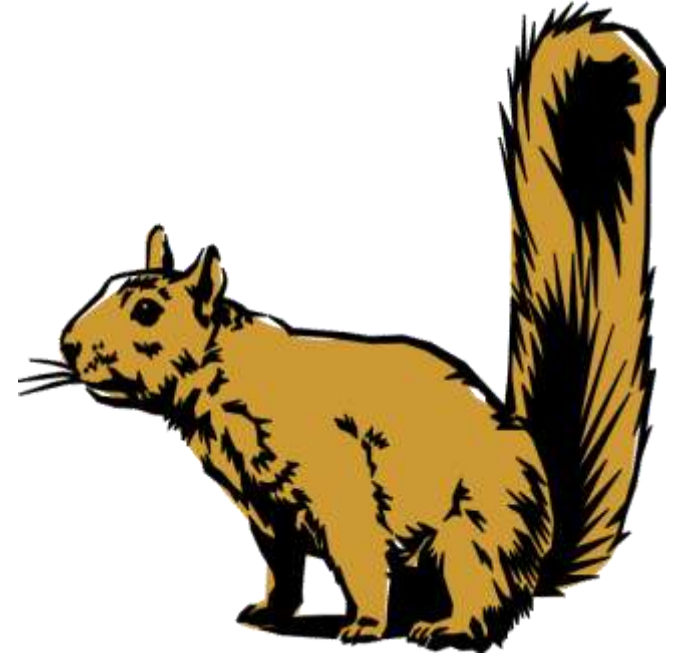

STATION 5: GROUNDWATER

1. You move down and become part of an aquifer. **Stay at the Groundwater station.**
2. You move down and become part of an aquifer. **Stay at the Groundwater station.**
3. You move slowly underground between grains of sediment and eventually flow into a wetland and from there into a stream. **Go to the Stream station.**
4. You move slowly underground between grains of sediment and eventually flow into a wetland and from there into a stream. **Go to the Stream station.**
5. A plant takes you in through its roots. **Go to the Plant station.**
6. You are pumped out of the ground from a well to irrigate a farm. **Go to the Plant station.**

STATION 6: ANIMAL

1. After using you to process food, the animal urinates and you end up in the ground. **Go to the Groundwater station.**
2. After using you to process food, the animal urinates and you end up in the ground. **Go to the Groundwater station.**
3. You are exhaled from an animal's lungs into the air as vapor. **Go to the Cloud station.**
4. You are exhaled from an animal's lungs into the air as vapor. **Go to the Cloud station.**
5. A person uses you to brush their teeth and you end up going through a sewage treatment plant and then put into a stream. **Go to the Stream station.**
6. After using you to quench their thirst, a person urinates and you end up going through a sewage treatment plant and then put into a steam. **Go to the Stream station.**

STATION 7: PLANT

1. The plant transpires you through its leaves and you evaporate into the air. **Stay at the Cloud station.**
2. The plant transpires you through its leaves and you evaporate into the air. **Stay at the Cloud station.**
3. The plant transpires you through its leaves and you evaporate into the air. **Stay at the Cloud station.**
4. The plant uses you to grow. **Stay at the Plant station.**
5. The plant stores you in its edible fruit and you are eaten by an animal. **Go to the Animal station.**
6. The plant stores you in its edible leaves and you are eaten by an animal. **Go to the Animal station.**
